General Details:

- Coat
- Sunhat (sun cream to be applied before coming in)

Please note that if your child, or anyone in your child's bubble displays Covid 19 symptoms, that person will be isolated from others and sent home, as will the rest of the bubble. That bubble cannot return for 14 days unless the person with symptoms is tested and the result is negative. In this case, the bubble can then return to school.

We will talk to all the children on their first day back about the importance of staying safe in their bubbles. Please can you also discuss this with them. As I have stated earlier, I cannot promise that the children and staff in each bubble will be able to keep socially distanced during each day. Therefore, only send your child in if you accept this.

Do not bring your child to school if they, or anyone in your family bubble has got Covid 19 symptoms or have not been adhering to social distancing protocols. This is utterly vital in trying to keep everybody safe.
